

Replication Profile (Raw Read Density): *Acinetobacter baumannii* Strain LAC-4, Exponential Phase

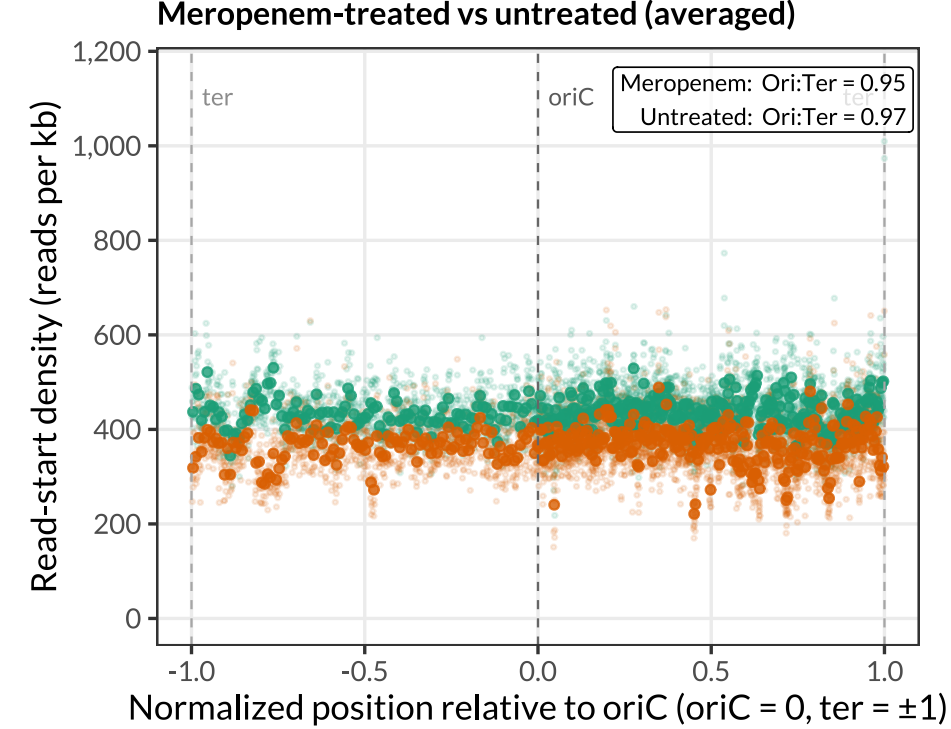

A

B

C

Biological replicate    ● A    ● B    Treatment    ● Meropenem-treated    ● Untreated (no drug)

Strain LAC-4, Exponential phase. oriC = 0, ter = ±1. Ori:Ter is the median read-start density ratio between windows near oriC and near ter. Values are raw read-start density, not normalized against a sample median or log-transformed.
